

## NorthWorks NEWS!

### Safety Council Conference Success

Last month we had the pleasure of meeting many of you at the **Minnesota Safety & Health Conference** NorthWorks' exhibit booth. Visitor activity hit an all-time high as we provided free vision and hand grip strength screens, while talking with MN safety professionals about NorthWorks Occupational Health clinic services, providers and our locations. Thanks to you, we're getting the word out that NorthWorks is a growing occupational health system with **board certified occupational medicine physicians**.

Extend congratulations to Nicholas Goers of The National Marrow Donor Program, whose name was drawn as the winner of the \$50 VonHanson Meats gift certificate, for dropping his business card in the bowl while visiting with us.

We extend a big thank you to everyone who stopped by; if you missed us this time around, please look for us at next year's Minnesota safety conference!

### Chaska Clinic Welcomes You in our New Location

NorthWorks Chaska Clinic relocated May 16, 2011 to our new spacious building at 1580 White Oak Drive in Chaska, next door to the Chaska fire station. The NorthWorks Chaska team is here to help you keep your employees safe and healthy on the job. . . and we want to introduce them to you:

Pictured are Ivana, Dr. O'Connell, Alyssa, Lupe and Nikki. Dr. Gil Lewandowski also works at NorthWorks Chaska Clinic. Stop in and say hello, or plan to join us mid-summer for a **open house celebration!** More details posted soon. [Click here for a map showing the new Chaska Clinic location.](#)

Thank you - everyone here at NorthWorks Occupational Health wishes you a safe, healthy and enjoyable Minnesota summer.
